

#TEDx Task

Recruitment Task Details

Task for the web and app team. Kindly answer it carefully and respectfully.

Guidelines:

1. You have to attempt any one of the below-mentioned tasks and submit it before the deadline.
2. It is not necessary to submit a complete task. You will be judged based on your knowledge and process.
3. Submission must be in the form of a GitHub repository. Share the GitHub repo's link through the Google Form provided in the mail. The repository should contain a demo video of the task. The repository should also contain a README file with all the essential commands and software requirements with their installation process.
4. Try to give your best and explain the process in a video of fewer than 5 minutes so that we can get an idea of your proficiency in the domain.
5. Provide the demo video explaining the process even if the task is not complete.
6. The name of the GitHub repository should be in the format (StudentName_Reg.No_TEDx_Chapter_Team_Applied)

Example:

Shantanu_Singh_Verma_21BCExxxxx_TEDx_Chapter_Web_and
_App_Team

Judging Criteria:

1. Structure of the code.
2. Code implementation.
3. Thought process
4. The interactivity of the interface with ease and usability

Task 1:

Design a basic website for TEDxVITBhopal which contains all the essential information required for the event.

You can take a reference from other [TEDx University](#) websites also.

You can add random images in places required but kindly use professional images.

The website design should strictly follow the TEDx design theme.

Kindly provide a demo video of fewer than 5 minutes inside the GitHub repository.
